

As a Child Care READS!
provider, I promise to:

- ☐ Turn everyday routines and interactions with children into opportunities for developing language skills.
- ☐ Tell every child in my care at least one story a day.
- ☐ Set up a library area where children, on their own, can access a wide variety of age-appropriate books.
- ☐ Attend a *Child Care READS!* approved training program with a focus on developing language and reading success.
- ☐ Share information with parents about the importance of language development and encourage them to read to their child at home.
- ☐ Make use of the resources available in my local library to promote a love of learning.
